EXPERIENCE

HATLESS STUDIOS | CO-HEAD OF TECH

May 2020 - Present | Exeter, UK

- Delivered workshops to upskill team members, facilitating their professional growth and technical proficiency, and actively involved in optimizing interview processes to attract and onboard high-quality candidates.
- Consistently delivered quality work on time and within budget, earning a reputation as a dependable and trustworthy team member. Promoted to Head of Tech after just 1.5 years at the company, overseeing project management and ensuring all technical requirements were met.

COREBLUE LTD | SOFTWARE ENGINEER

Aug 2021 - Aug 2022 | Plymouth, UK

- Developed multiple extensive REST APIs using Laravel, showcasing expertise in backend development. Collaborated closely with senior team members to enhance frontend fundamentals and effectively incorporate them into projects, resulting in high-quality web applications.
- Demonstrated leadership by taking innovative in sprint planning as well as providing mentorship to new employees.

RECENT PROJECTS

PRIMARY LANGUAGES NETWORK | FRONTEND DEVELOPER

Tech: Vue, JavaScript, Python, Django, Jest, Vue Test

- Led frontend development successfully launching the platform to over 70 schools and 5000+ active users
- Continuously delivered new features on time getting the platform recognised in the Language Trends Survey alongside Duolingo.
- Orchestrated the migration of the frontend from Vue2 to Vue3 resulting in a 28% faster build time

AMA SELECTIONS | FULLSTACK DEVELOPER

Tech: NextJS, React, Laravel, Docker, PHP, JavaScript, GraphQL

- Led mobile development initiatives, optimizing the platform for enhanced mobile performance and user experience.
- Implemented a streamlined booking flow, ensuring a user-friendly and efficient booking experience for customers.
- Designed and developed a comprehensive user dashboard, offering seamless access to bookings and facilitating direct communication with administrators.

CASE MANAGEMENT PLATFORM | FRONTEND DEVELOPER

Tech: React, Vitest, Testing Library, TypeScript, Cypress

- Transformed frontend development efforts by streamlining processes and driving teams to achieve consistent on-time project deliveries, effectively catching up from being behind by two sprints.
- Overhauled the testing infrastructure reducing the number of bugs being reported by 39%.

HATLESS STUDIOS WEBSITE | FULLSTACK DEVELOPER

Tech: Nuxt, Vue, JavaScript, Strapi, Tailwind

- Improved SEO performance by over 12% across all metrics by leveraging Nuxt.js 3, leading to higher search engine rankings and increased organic traffic.
- Successfully boosted website traffic by 57%, elevating the company's online visibility and generating more project opportunities.
